

TRIPLE SHINE

COMPANY PROFILE

COMPANY PROFILE

Detergents are used by everyone everyday and they are as important to us as food!

As a growing brand we give you the opportunity to start your own detergent refill business in your community.

We aim to save the environment from the waste of plastic detergent bottles and save consumers money through detergents refills in rural and township areas.

We offer each agent full support and training to get all set up in joining the "Refill Revolution."

HOW IT WORKS

“Join The Refill Revolution.”

- Resell Cleaning detergents to people in your community by refill option. They will bring their own containers which you refill at a price.
- You will receive your stock from Triple Shine, delivered to your door/shop.
- You will receive special prices in order for you to make profit on your stock.
- We will only sell to you as an agent. All other consumers have to buy from you. We will also not have too many agents operating in one area, all areas will have a set limit of agents.
- The initial Joining Fee is R3000.00 ONLY AT START UP! From there you can order your stock at cheaper prices for resell.
- You are entitled to one free delivery every month.

RE-STOCKING

- When you need to restock on products and marketing we will give you a dedicated stock manager who will take your orders via SMS/Phone/Email/Whatsapp, process your payments and deliver them to your shop/location.
- To make sure you make profit on selling the products we have a price list that is only available to you at affordable prices (only resellers will receive the price list). We do not sell to the general public, we will only sell to our agents. All consumers will buy from our refill agents.

PROFITABILITY

- With our low affordable stock prices you will be allowed to charge your own pricing for products as per your market requirements. Some of our clients sell a litre of our detergents starting at R15.00 (1ml=1.5 cents) and make close to 75 % commission on cost price, some sell 250ml cup for R5.00 (1ml=2 cent) ,
- At the moment 750ml bottle of Sunlight dishwashing liquid costs R24.50 at retail price, if you buy our dish washing liquid 25L at R210, and sell each 750ml for R15.00 , you make a total of $R499.99 - R210 = R290$ profit , the more you sell the more you make. On average a household uses 1.5 litres of Dishwash liquid a month, if you reach 300 households in your community buying from you every month, you will sell 450 litres of dishwash liquid making you R5220.00 commission every month on Dishwashing liquid alone if you sell it for R20 a litre.
